Leskovac, June, 2016

Higher Business School of Professional Studies in Leskovac, has, as a part of the Tempus project Modernization and harmonization of Tourism study programs in Serbia 544543-TEMPUS-1-2013-1-1-RS-TEMPUS-JPCR, accredited a study program Business economy and management within postgraduate vocational studies (II level studies). Until the accreditation of the above mentioned study program, HBSL did not have adequate tourism related modules for the II level of studies. New tourism and hospitality modules (postgraduate studies) allow students of study programs Tourism and Hospitality and Management of Food Technology and Gastronomy to continue their studies. Module Management of tourism and hospitality (postgraduate studies) is accredited for 27 students and it has two submodules: Tourism and hotel management and Hospitality and gastronomy. Sub-module Tourism and hotel management is accredited for 14 students while the sub-module Hospitality and gastronomy is accredited for 13 students. Postgraduate vocational studies last two semesters and students can earn a total of 60 ECTS. Realization of this study program began in 2016/2017.

Due to certain changes in the Law on Higher Education of the Republic of Serbia taking place in the course of the project realization which predicted Accreditation of Master Professional Studies (studies of second degree) (postgraduate studies), in cooperation with partners, we began drafting the curricula for the accreditation of Master Vocational Studies. Project partners together with Tempus office supported the accreditation of this study program. Accreditation material was handed over to the National Commission for Accreditation and Quality Assurance. Master study program has 120 ECTS and lasts 2 years. The process of accreditation of master vocational studies has been postponed due to the Ministry of education and science's decision to enact new criteria for accreditation of master studies on higher business schools.
