## **Project task:**

### **Activity 6.4. Implementation of corrective measures**

#### **Report on Implemented Corrective Measures**

##### Project task description:

Design of a report on implemented corrective measures within TEMPUS project No. 544543-TEMPUS-1-2013-1-RS-TEMPUS-JPCR in line with the recommendations given in the Report on conducted monitoring visit, and on the basis of the Intermediate Report on project implementation and conducted monitoring visit.

##### Description of the outcome:

This Report is a result of joint effort of a project team consisted of representatives of Business and Technical College of Vocational Studies in Uzice (hereinafter BTC), with coverage of corrective measures implemented at University of Kragujevac, Faculty for Hotel Management and Tourism in Vrnjacka Banja (hereinafter UNIKG) and High Business School of Vocational Studies in Leskovac (hereinafter HBSL).

## INTRODUCTION

On the basis of the EACEA's assessment of Intermediate Report on implementation of the project of 21 December 2015, Managerial Board of the **MHTSPS** TEMPUS project ordered contact persons from higher education institutions partners on the project from Serbia to undertake necessary corrective measures, in coordination with Management of their institutions. All three higher education institutions have conducted a detailed analysis of its acts. Adequate corrective measures have been identified and implemented.

## CONDUCTED CORRECTIVE MEASURES

All three higher education institutions (BTC, UNIKG and HBSL) have identified corrective measures separately. These corrective measures were implemented after the monitoring visit of Tempus Office representatives and submission of Intermediate Report to EACEA.

BTS Užice conducted the following corrective measures:

1. Project web site has been improved and updated - <http://mhtsps.vpts.edu.rs/>

1.1. HBSL's web page related to the MHTSPS project activities have also been updated - [http://vpsle.edu.rs/tempus\\_mhtsps\\_english-version](http://vpsle.edu.rs/tempus_mhtsps_english-version).

From now on, the most relevant information related to actual activities within the project are published at the BTC's Facebook page in order to promote the project and disseminate the project results.

2. **MHTSPS** TEMPUS project Web portal has been designed, developed and registered - <http://vpts.edu.rs/mhtsps-portal/>. Web portal should provide sustainability of the project, but also connection of higher education institutions with tourism stakeholders and improvement of general informing the public about all important issues related to tourism of Serbia - regulations in Tourism (legislation, rulebooks, ordinances, strategies), Tourism education in Serbia (secondary education, higher education, Tourism Faculties and related disciplines), training courses for tourism employees (offer of developed training courses for tourism employees), current trends in tourism, etc.

3. Practical placement undergraduate vocational studies curricula have been re-defined and improved in compliance with the stakeholders' requirements:

3.1. BTC's Practical placement undergraduate vocational studies curriculum
