As regarding the second item of agenda, it has been agreed that each partner HEI from Serbia will design individual Report on realized corrective measure. These individual reports will be integrated into one – Joint Report that will be designed by BTC Uzice project team.

UNIKG selected 20 teaching subjects that could be included in the curricula of all four partner higher education institutions. It has been concluded that all the partners approached very

seriously to the issue of curriculum design. Communication between partners regarding the curricula design should be even more intensive in the future.

Prof. Milutin Djuricic informed participants about the number and structure of submitted papers for the First International Conference „Higher education in function of development of tourism in Serbia and Western Balkans“. It has been proposed that the best students from all four partner higher education institutions from Serbia should be motivated to participate in the Conference work. Once again the importance of attracting the foreign authors was emphasized.

Whithin the fifth item of agenda, the need for initiating the activities within the Work package 4 – Development of longlife learning courses for tourism employees was pointed out. The higher education institutions will prepare material for the courses.
